## ALICE TACHENY DESIGN: ICFF DEBUT

Alice Tacheny Design, founded in 2011, debuted their first collection of furniture at the ICFF this year. In Alice's words, "Alice Tacheny Design creates furniture that embodies the concept of modern craft. We design and make individually crafted pieces of modern furniture that are defined by expressive joinery, domestic hardwoods, and hand-rubbed oil and wax finishes. We are committed to the creation of furniture pieces that are a new kind of heirloom: lasting, authentic, graceful, and modern." Love her integration of metal and wood.
